INSIDE EDUCATION DASHBOARD

Integrated Timely Intelligence To Provide A Consolidated View Of Operations

In an education environment more transparent than ever, where the majority of users are non-technical, having the ability to effectively access and explore data at a granular level to improve decision making within your own organisation is critical.

Having one consolidated view of operations that spans multiple schools, campuses and divisions to measure, compare and profile performance results as they happen over any time period. This supports more effective decisions about student achievement and lifecycle, course planning, operations, purchasing, staffing and future planning.

Inside Info helps people see and understand their business data to improve operational and financial processes. Inside Info are pure, best-of-breed analytics specialists. Since 2003 we've been working with over 100 clients in developing successful enterprise business intelligence dashboards and reporting solutions. We specialise in BI solutions that are highly visual, affordable, fast to deploy, simple to use and easy to change. Giving teams the freedom to explore key business and operational metrics in any way they choose without having to wait for answers.

Inside Info offers the full spectrum of business analytics software and services including licensing, scoping, design, development, integration, training, project management and support services for the leading Qlik analytics platform.

Our Analytics Solutions Provide:

- **A one-screen view of all the facts:** to ensure a consolidated understanding of operations spanning multiple schools and functions with visibility integrating financial, resource planning systems and other business data to better understand commercial impacts and performance benchmarks.

- **The ability to track data over the student lifecycle** from the application and admissions phase to post-graduate performance to the lowest level of data, providing effective management of the academic cycle. Very easily have the ability to make available information to students and schools via a secure, personalised web solution.

- **The ability to create a more cost-effective curriculum** easily tracking trends in course enrolment across campuses and understanding financial relationships, combining with comparative analysis against other schools, locations and targets to enhance learning outcomes.

- **Interactive analysis of fixtures and assets** across the campuses to understand maintenance and cost implications.

- **On-demand and interactive financial analysis** to transactional level detail of departments, supplies and assets to optimise procurement and management of assets.

- **Near real-time visibility into operations**: Instead of out-of-date reports. On-demand self-serve analysis of data, often replacing hundreds of OLAP based reports and empowering users to perform their own analysis reducing IT support by up to 90%. We provide both self-serve analysis, guided analytics, advanced analytics options, embedded analytics and reporting.

- **Sub-second query response on very large data volumes** into the hundreds of million records without losing transactional level detail, with data refreshing as often as your underlying source systems.

- **Ability to view information at a high-level, transactional-level and anywhere in between** in any path decided by the user, with no pre-defined drill-down paths. If you've got a business question, odds are you'll be able to answer it – you don't have to wait for another report. Easily consolidates data from any and multiple data sources.

- **Simple to use, available everywhere:** Access your dashboard from any device whether this be laptop, iPad, the web or your mobile device, with the same experience on each, being HTML5 compliant.

- **Available in the cloud or on-premise:** We offer a choice of deployment options depending on your needs for the Qlik BI platform.

- **Very fast implementation cycles:** A typical Qlik project for example is 30 days and is 53% the total cost of other BI solutions according to IDC. While adding in a new data source or building a new view of the data can be modified very easily within a few hours.

- **Our business analytics solutions are built on the scalable, enterprise class Qlik analytics platform:** Recognised as a Leader in analytics by Gartner in its 2022 Analytics Platforms Magic Quadrant.

What Makes Us Different

Inside Info was founded to bring the promise of analytics to a much broader group of people making it simpler, more engaging, affordable and rapid to deliver. For over 19 years our sole focus has been to help mid sized and enterprise businesses use data to perform as well as they possibly can, as data and analytics specialists. We have a proven track record of client success currently supporting over 100 clients nationally, having delivered over 600 BI projects. We can offer strength & stability as a provider with the flexibility & personal touch of a boutique partner. This track record has allowed us to build industry, business function and system templates based on the leading Qlik BI platform that speeds up data integration, application development & delivery.

We bring strong industry and business process expertise to your project that many cannot. We can assist in complementing your existing inhouse resource, manage adhoc report requests or in the areas of analytics business requirements definition, business scoping, consolidating data sources, data integration, data management, BI application design, implementation and training services.

Inside Info launched Qlik to Australia in 2003 and are the top level Elite Qlik Partner. Our BI practitioners each have 10+ years' experience to guide you along the way. So, if you're looking to become more data-driven and take your use of data to the next level, we'd love to hear from you.
